Microcentrifuge tube racks are crucial tools in laboratories. They are designed to hold and organize microcentrifuge tubes, which are used to store small liquid samples. These racks are typically made from durable plastic and have multiple slots or wells to securely hold the tubes in an upright position.

- They are made of autoclavable polypropylene and are supplied in a rainbow pack of five racks (B, O, R, G, Y) or a single color of your choice.
- Holds lots of microcentrifuge tubes at once.
- Secure sealing to prevent spills and contamination
- Takes up little space on your lab bench.
- Easy-to-read labels help you organize your samples.
- Washable and autoclavable
- Great for many types of lab tests and research.
